## BLUEBERRY

*(Vaccinium corymbosum)*

**All our mother microcuttings are proved to be virus-free according to laboratory examination.**

**We conduct genetic comparative tests for variety genuineness.**

The blueberry plants are very well rooted, hardened off and well-branched from the very plant shoot. Bushes are produced by the micro-cutting method developed in our nursery. Frost hardiness follows Brazelton 2000.

### VARIETIES PRODUCED UNDER LICENSE:

Varieties **Aurora**, **Draper** and **Liberty** in 2,5 litre container are offered for plantations only. These varieties are protected by breeders license which belongs to Michigan State University (Aurora - CPVR 23937, Draper - CPVR 23938, Liberty - CPVR 23939, Calypso- CPVR 2014/2700).Huron CPVR 46583. Royalty fee is 0,50 EUR.

## PATIO BLUEBERRIES

*(Vaccinium corymbosum x Vaccinium angustifolium)*

Varieties produced under license: **Aino<sup>PBR</sup>**, **Alvar<sup>PBR</sup>**, **Arto<sup>PBR</sup>**, **Jorma<sup>PBR</sup>**

The most important feature of Patio Blueberries is high frost resistance - they can be easily grown on terraces and balconies.

These plants can survive winter in a container if properly protected, however it is recommended to keep them in a cold garage or basement. Very abundant fructification and compact form - grow up to about 1,5 m high are the unique properties of Patio Blueberries. The size of fruits differs depending on the variety and ranges from 1 to 1,5 cm. The material in the varieties Aino, Alvar, Arto, Jorma is offered exclusively and covered by Natural Resources Institute Finland (LUKE) breeder's license. The price includes a license fee 0,33 EUR

## CZECH RHODODENDRON COLLECTION

The varieties included in the Czech Collection were bred at the **Silva Tarouca Institute for Landscape and Ornamental Gardens, v.v.i., Průhonice, Czech Republic**. They are distinguished by their **exceptionally attractive flower colors and very abundant and long blooming**. Some varieties are additionally characterized by their particularly durable, compact inflorescences that can flower for over 3 weeks.

Symbol	Height [cm]	Container [L]	Price [EUR]

Variety	Flower color
<b>Bečov - hybrid</b> (Cornelia Schröder × Petr) Purple pink flowers, gathered in a round inflorescences are 8 cm wide. The edges of each petal are curled and dark red. Leaves are big and glossy. In 10 years shrubs are 1,4 m (height) and 1,6 m (wide). Flowering from early May. Frost resistance up to -24°C.	<b>purple pink</b>
<b>Bezděz - R. ponticum - hybrid</b> (R. ponticum × Cunningham's White) Flowers are 7 cm wide in flat trusses, pale purple with yellow markings. Leaves glossy and very dark green. Size of the shrub is 1,2 m (height) × 1,3 m (width) in 10 years. Flowering time is early to mid May, but reliably and often much more strongly in August to October. Hardy variety up to -24°C. Plants with 1-2 flower buds.	<b>light violet</b>
<b>Bouzov - R. calophytum - hybrid</b> Light purple flowers (8 cm wide) with dark purple-red dots are gathered in a round inflorescences. Flower buds are red. Compact and regular habit of the shrub. In 10 years shrubs are 1,1 m (height and wide). Flowering mid April to early May. Frost resistance up to -24°C.	<b>pale purple</b>
<b>Děvín<sup>PBR</sup> - hybrid</b> (Saba × Sarasate) <b>Breeder: Michal Severa</b> Buds are showy bicoloured – strong red purple with light purple margins. Flowers are 8 cm wide in domed trusses, bicoloured light and deep red purple with big red eye. Flowers are strong scented. Very floriferous variety. Leaves are slightly glossy. Plants are regularly compact, height and width of the shrub is 1,1 m in 10 years. Flowering time is late May to early June. Frost resistance up to -24°C (at least).	<b>pink purple</b>
<b>Hostýn<sup>PBR</sup> - hybrid</b> [(Arthur Stevens × Humboldt) × Madame Jules Porgès] Light purple flowers with large colourful dot are gathered in conical inflorescences. Dark green leaves are slightly waved and glossy. In 10 years shrubs are 1,6 m (height) and 1,4 m (wide). Flowering from mid May. Frost resistance up to -24°C.	<b>light purple</b>
<b>Ještěd<sup>PBR</sup> - hybrid</b> (Vilém Heckel × Madame Jules Porgès) Flowers are 9 cm wide in conical trusses, flowers are purplish red, quite lighter in the centre, and with dark red blotch. Leaves are dark green, glossy. Strong growth, shrubs are 1,4 m (height) × 1,6 m (width) in 10 years. Flowering time is late - end May to mid June. Hardy variety to -24°C. Plants with 1 or 2 flower buds.	<b>pink purple</b>
<b>Karlštejn - hybrid</b> (Arthur Stevens × Bohumil Kavka) Flowers are 8 cm wide, durable and in domed trusses, light purplish pink with darker edges and dark red blotch. Leaves glossy. Size of the shrub is 1,1 m (height) × 1,2 m (width) in 10 years. Flowering time is early to mid May. Hardy variety up to -24°C.	<b>pale pink</b>
<b>Klenová - hybrid</b> (Spätlese × Bohumil Kavka) Flowers are 8 cm wide in domed trusses, strong purple with light yellow centre and many dark red spots all over the corolla. Leaves narrow and glossy. <b>Young shoots are intense red</b> . Size of the shrub is 1,6 m (height) × 1,4 m (width) in 10 years. Flowering time is late May to early June. Hardy variety up to -24°C. Plant with 1 or more flower buds.	<b>purple</b>
<b>Klíč - hybrid</b> (Reifrock × Claudine) Purple pink flowers with amber dot are 7 cm wide. Dark green glossy leaves. Mid growing variety - size of 7 years old shrub is 70 cm (height) and 50 cm (width). Flowering mid to late May. Frost resistance up to -20°C.	<b>purple pink</b>

Variety	Flower color
<b>Koda</b> - <i>R. fortunei</i> - hybrid (Konsonanz × Spätlease) Large (approx. 9 cm wide) flowers are gathered in a round inflorescences. At the start of bloom flowers are intensively light pink but they turn white with dark red dots. The edges of petals are gently curled. Leaves are dark green and glossy. Compact and round habit. In 10 years shrubs are 1,1 m (height and wide). Flowering from mid May. Sun exposure and heat are well tolerated. Frost resistance up to -18°C.	<b>white</b>
<b>Kokořín</b> - <i>R. yakushmanum</i> - hybrid (Blurettia × Bohumil Kavka) Flowers are 7,5 cm wide in domed trusses, reddish purple with white centre and a few dark spots. Leaves matt. Flower buds are purple during the winter. Size of the shrub is 1,2 m (height) × 1,3 m (width) in 10 years. Flowering time is mid to late May. Hardy variety up to -24°C (at least).	<b>purple</b>
<b>Kotnov</b> - hybrid (Profesor Scholz × Petr) Flowers are 7 cm wide in domed trusses, young flowers have light pink margins and creamy yellow centre, matured ones are full yellowish white. Leaves matt. Flower buds are bicoloured (yellow/red) during the winter. Size of the shrub is 1,4 m (height) × 1,6 m (width) in 10 years. Flowering time is mid to late May. Hardy variety to -24°C (at least). <b>Heat and sun tolerant variety.</b>	<b>light pink</b>
<b>Kozakov<sup>PBR</sup></b> - <i>R. yakushmanum</i> - hybrid - <i>R. forrestii</i> (Bambola × Madame Jules Porgès) Dark green glossy leaves. Flower buds are purple-red in the winter. Size of a 10 years old shrub is 1,1 m (height and width). Flowering from mid May. Frost resistance up to -24°C.	<b>purple pink</b>
<b>Krakovec</b> - <i>R. insignie</i> - hybrid (Sammetglut × Berliner Liebe) Flowers are 6 cm wide in domed trusses, deep red with white centre and a few dark red spots. Leaves are thick and glossy. Height and width of the shrub is 1,2 m in 10 years. Flowering time is mid to late May. Hardy variety up to -24°C. Plant with 1 or more flower buds.	<b>red</b>
<b>Libin<sup>PBR</sup></b> - hybrid (Hachmann's Mercator × Genoveva) Flowers are 8,5 cm wide in domed trusses, flowers are pale purple with dark reddish purple blotch. Leaves are mid green, glossy. Middle growth, shrubs are 0,8 m (height) × 0,7 m (width) in 7 years. Flowering time is beginning to mid of May. Hardy variety up to -24°C (at least).	<b>pale purple</b>
<b>Lipnice</b> - hybrid (Sammetglut × Petr) Flowers are 7 cm wide in domed trusses, strong purplish red with precise wavy margins. Leaves are thick and glossy. Height and width of the shrub is 1,6 m in 10 years. Flowering time is mid to late May. Hardy variety up to -24°C (at least). Plants with 1 flower buds.	<b>purplish red</b>
<b>Lovoš</b> Flowers are 8 cm wide in domed trusses. At the start of bloom flowers are intensively purplish red with dark red dots. Strong growing Height 1,3 m and width 1,5 m of the shrub is in 10 years. Flowering time is beginning to mid of May. Hardy variety up to -24°C	<b>NOVELTY!</b>
<b>Praděd</b> - hybrid (Profesor Scholz × Petr) x (Profesor Scholz × Petr) Flowers are 8 cm wide in domed trusses, light yellow with salmon pink shades and few yellow spots. Leaves dark green shiny. Flower buds are covered with tomentum during the winter. Size of the shrub is 1,2 m height and 1,4 width. Flowering time is end of April to early May. Frost resistance up to -24°C.	<b>light yellow</b>
<b>Ralsko</b> - <i>R. fortunei</i> - hybrid (Konsonanz × Spätlease) Flowers are up to 8,5 cm wide in domed trusses, light pink with light yellow centre and lots of dark red spots. No stamens. Leaves light green, glossy. Strong growing and fairly compact plant. Shrubs are compact, 1,3 m (height and width) in 10 years. Flowering time is mid May. Hardy variety up to -24°C. Heat and sun tolerant variety.	<b>light pink</b>
<b>Říp<sup>PBR</sup></b> - <i>R. forrestii</i> - hybrid (Eva × Buketta) <b>Breeder: Michal Severa</b> Flowers are up to 7 cm wide in domed trusses, strong purplish red with dark red markings. Leaves slightly glossy. Very floriferous variety. Low growing shrubs are fairly compact, 0,75 m (height) and 1,3 m (width) in 10 years. Flowering time is mid May. Hardy variety up to -24°C (at least). <b>Heat and sun tolerant variety.</b>	<b>purple</b>

Variety	Flower color
<b>Sovinec</b> - hybrid (Nova Zembla × Hachmann's Evelyn) Flowers are 8 cm wide in domed trusses, vivid purplish red with dark red markings. Leaves glossy. <b>Flower buds are red during the winter.</b> Plants are very nice and regularly compact, height and width of the shrub is 1,2 m in 10 years. Flowering time is mid to late May. Hardy variety up to -20°C.	<b>purplish red</b>
<b>Stožec</b> - <i>R. degronianum</i> - hybrid (Claudine × <i>R. degronianum</i> ssp. <i>heptamerum</i> var. <i>hondoense</i> ) Flowers are 8 cm wide in domed trusses, purplish pink with orange and yellow markings. Leaves are quite short and wide. Middle growing variety, shrubs are 0,9 m (height) and 1,1 m (width) in 10 years. Flowering time is mid May. Hardy variety up to -24°C (at least).	<b>purple pink</b>
<b>Střekov</b> - <i>R. yakushimanum</i> - hybrid Flowers are 7 cm wide in domed trusses, bright purple with darker edges and changing (green-to-red) markings. Leaves matt. Plants are very nice and regularly compact, height and width of the shrub is 1,2 m in 10 years. Flowering time is mid to late May. Hardy variety up to -24°C (at least). <b>Heat and sun tolerant variety.</b>	<b>purple</b>
<b>Švihov</b> - <i>R. wardii</i> - hybrid [(Mrs Anthony Waterer × <i>R. wardii</i> ) × (Mrs Anthony Waterer × <i>R. wardii</i> )] Flowers are 6 cm wide in domed trusses and change their colour during the time: young are purplish pink with paler centre and green spots, matured flowers are pale yellow with orange-red markings. Leaves are glossy. Height and width of the shrub is 1,2 m in 10 years. Flowering time is late May to mid June. Hardy variety up to -20°C.	<b>purplish pink</b>
<b>Vranov<sup>PBR</sup></b> - hybrid (Křivoklát × Claudine) <b>Breeder: Michal Severa</b> Flowers are 7 cm wide in domed trusses, cardinal red (unfading) with white anthers. Leaves are matt. Size of the shrub is 1,2 m (height) × 1,3 m (width) in 10 years. Flowering time is early to mid May. Hardy variety up to -20°C.	<b>red</b>
<b>Vyšehrad<sup>PBR</sup></b> - hybrid (Konsonanz × Bluebell) Flowers are up to 12 cm wide in domed trusses, flowers are deep purplish pink, lighter in the centre, and with large dark red blotch. Flowers with slight scent. Leaves are dark green, glossy. Robust and strong growing plant. Shrubs are 1,6 m (height) × 1,4 m (width) in 10 years. Flowering time is mid May. Hardy variety up to -24°C. Heat and sun tolerant variety.	<b>dark purple pink</b>
<b>Zebín<sup>PBR</sup></b> - hybrid (James Burchett × Karibia) <b>Breeder: Michal Severa</b> Flowers are 7,5 cm wide in domed trusses, pale yellow, outside with salmon tint, and with orange-yellow markings. Leaves dark green, glossy. <b>The young shoots with roseine red bud scales.</b> Mid growing variety, nice compact shrubs 1 m (height) × 1,3 m (width) in 10 years. Flowering time is mid May. Hardy variety up to -24°C.	<b>yellow</b>

## MUSIC RHODODENDRON COLLECTION

### Breeder: Piotr Muras

The names of the varieties of this collection (i.e. **'Fryderyk'**, **'George Sand'** and **'Polonez Chopina'**) were given to commemorate the great composer Fryderyk Chopin. They were created as a result of breeding works initiated by Dr Piotr Muras in the 1990s. The shrubs included in this collection are **low or medium sized, with a compact, oval shape, dense, dark green foliage and a large number of shoots**. They distinguished by **early blooming, good frost resistance (about -24°C), resistance to drought and full sunshine**.

Symbol	Height [cm]	Container [L]	Price [EUR]

Variety	Flower color
---------	--------------

#### **Fryderyk** <sup>PBR</sup>

**salmon pink**

(Belkanto x *R.aureum*)

(P.Muras 2012)

Low bush with an oval, slightly flattened habit. Leaves are dark green, slightly glossy. In 10 years grows up to 0,5-0,6 m high and 0,8 m wide. Flowers 5-5,5 cm across. Flower buds are salmon pink, in blooming time yellow - cream with a spotted olive green blotch on the upper petal and contrasting dark pink markings. Blooms early, very profusely from the middle of April to the beginning of May (southern Poland). Frost resists about -24°C. (frost zone 6A). Due to small size it is especially recommended for small gardens. Variety legally protected.

#### **George Sand** <sup>PBR</sup>

**yellow**

(Belkanto x *R.aureum*)

(P.Muras 2012)

Low dense shrub with a ball-shaped habit. In 10 years grows up to 0,5-0,7 m high and similar width. Leaves are dark and slightly shiny. Flowers 5-5,5 cm across, buds are yellow pink, in blooming time lemon yellow with a contrasting greenish yellow mottled spot on the upper petal. Blooms profusely from mid-April (southern Poland). It's a frost hardy variety about -24°C (6A frost zone). Recommended for small gardens. Variety legally protected.

#### **Polonez Chopina** <sup>PBR</sup>

**creamy-white**

(*R.aureum* x Tomasz Wojciech)

(syn.Polonez)(P.Muras,2013)

A medium sized shrub with rounded habit. In 15 years grows up to 1,1 m high and 1,2 m wide. Leaves are dark green, glossy. Flowers 5,5-6 cm wide. Buds are pink and salmon pink, fully opened cream-white with a delicate fading pink shade and a yellow-green mottled spot on the upper petal. Blooming time from mid-April (southern Poland). Frost hardy variety about -24°C (6A frost zone). Healthy variety recommended for small gardens and parks. It is legally protected.

## RHODO ELITE COLLECTION

We are proud to present the new, unique group of rhododendrons named to emphasize its exceptional character - **Rhodo Elite**.

Not only the shrubs look impressive during the blooming time, but most of all they astonish with their spectacular leaf appearance for most of the summer time.

The collection includes **species, primary and second crossings as well as breeding varieties all of them having unusual and attractive leaves, especially young shoots.**

Within the collection you will find shrubs with leaves **covered with tarnish (cutter)** in different shades from **silvery to copper-brown**.

There are also shrubs **covered with an extremely attractive suede lining underneath of the leaf: silvery or copper**. Some of them have **fantastic young leaf colours: creamy, silvery, blue or brown-purple** that lasts for an entire season!

Variety	Flower color	Symbol	Price [EUR]
Pot size (L) / ex - plants with flower buds, price group (I+, I, II)			
<b>Aesthetica</b> ( <i>smirnowii</i> x <i>bureavii</i> )	light pink	5/exl	11,90
Rhododendron bred by Ben Lancaster. It has an attractive foliage – young shoots are covered with delicate creamy tomentum. With copper coloured leaves' indumentum. Leaves are elongated, dark green, rolled up. Flowers are light pink, slightly wavy, darker in the bud. Dense and straight habit. Medium growth - in 10 years reaches 100-120 cm height. Frost resistance of -26°C.			
<b>Dodori</b>	cream pink	NOVELTY!	10/exl 33,70
Rhododendron from Yakushmanum group with cream pink flowers. Leaves are elliptic, small, and very dense. Leaves densely arranged on shoots of intense green colour. Blooms profusely creating a spectacular effect in the garden. Rare variety that will add charm to any garden.			
<b>Edelweiss</b> (selekt <i>degrnium</i> ssp. <i>yakushmanum</i> )	white	15/exl	27,15
Select, with an unusual attractive foliage – young shoots covered with an intense cream and cinnamon tomentum, which changing into silvery. Tomentum remains on the shrub all year long, but rub off on older leaves. Indumentum of the leaves is light brown. Flowers are pink in bud, when blooming - white. Dense and stocky habit. In 10 years reaches 60-80 cm. Frost resistance -24°C.			
<b>Elya</b> [( <i>Fabia</i> x <i>bureavii</i> ) x <i>degronianum</i> ssp. <i>yakushmanum</i> ]	pink	10/exl	33,70
Rhododendron from <i>Yakushmanum</i> group with an attractive foliage. Young shoots are covered with an intensive cream and cinnamon coloured tomentum, which stays on the bush all year long. Indumentum of the leaves is light brown. Flowers are pink with yellow spot. Dense and stocky habit – in 10 years reaches 50-60 cm height. Frost resistance of -24°C.			
<b>Fuju-kaku-no matsu</b> <i>makinoi</i>	pink	10/exl	27,15
Japanese variety with quite narrow, long, curled leaves, characteristic for Makinoi group varieties. Young shoots have an intense, silvery tomentum. Bottom side of leaves is covered with a cream to light brown tomentum. Flowers are pink, in bud darker, with delicate spot. Dense and wide habit – in 10 years reaches 60-80 cm height. Frost resistance of -26°C.			
<b>Hydon Velvet</b>	white	5/exl 11,90	
<i>degronianum</i> ssp. <i>yakushmanum</i> x <i>bureavii</i>		15/exl 27,15	
Select. Like some other varieties of Rhodo Elite Collection, it has brown, suede indumentum underneath its leaves. They are dark green, elongated, oval. Flowers are white, large, bell-shaped. Slow growing, compact form. Prefers semi-shaded positions. In 10 years reaches 80-120 cm height. Plants may not have flower buds.			
<b>Ken Janeck</b>	light pink	5/exl 11,90	
select <i>yakushmanum</i>		15/exl 27,15	
Select, bottom side of leaves is covered with cream indumentum. The leaves are elongated, light green. Flowers pale pink with a light brown spot. Slow growing, compact form. Prefers a semi-shaded position. In 10 years reaches 80-120 cm height. Plants may not have flower buds.			
<b>Maifeude</b>	dark pink	NOVELTY!	5/exl 11,90
		15/exl 27,15	
Rhododendron from Yakushmanum group with an attractive foliage with violet colour buds and dark pink flowers after blooming. Flowers strong frayed. Leaves mat, light green with tomentum. Grows to medium size, dense habit with numerous of small leaves. Flowering early Spring.			
<b>Oberschlesien</b>	light pink	5/exl	11,90
(insigne x <i>degronianum</i> ssp. <i>yakushmanum</i> )			
Primary rhododendron crossing with an attractive foliage – young shoots are covered with a delicate creamy tomentum. Indumentum is light cream coloured. Leaves elongated, dark green, flowers are light pink, darker in the bud. Dense habit. Medium growth. In 10 years reaches 100-120 cm height. Frost resistance -24°C.			

Variety	Flower color	Symbol	Price [EUR]
Pot size (L) / ex - plants with flower buds, price group (I+, I, II)			
<b>Rauhreif</b> ( <i>degronianum</i> ssp. <i>yakushmanum</i> x <i>smirnowii</i> )	light pink	5/exl	11,90
Rhododendron from <i>Yakushmanum</i> group with an attractive foliage – the young shoots covered with silvery tomentum. With suede like, light cream indumentum underneath leaves. Leaves are rather big and oval. Flowers pale pink, slightly frayed. Dense and erected habit. Growth typical for <i>Yakushmanum</i> – in 10 years reaches 80-100 cm. Frost resistance of -24°C.			
<b>Ruth Davis</b> ( <i>degronianum</i> ssp. <i>yakushmanum</i> x <i>degronianum</i> ssp. <i>heptamerum</i> )	white	5/exl 15/exl	11,90 27,15
Select – primary rhododendron crossing with attractive foliage. Young shoots and buds covered with delicate, creamy tomentum. Indumentum is light cream coloured. Leaves are elongated, dark green, white flowers infundibular, slightly wavy. Medium growth - in 10 years reaches 80-100 cm.			
<b>Silver Lady</b>	white	NOVELTY! 15/exl	33,70
Beautiful variety with delicate flowers, red-pink in bud, pure white after blooming with small yellow spot on the top of petal. Elliptical leaves with silver shadow. Young leaves covered with beautiful tomentum. Grows to medium size, created dense and stocky shrub.			
<b>Teddy Bear</b> ( <i>bureavii</i> x <i>degronianum</i> ssp. <i>yakushmanum</i> )	light pink	5/exl 15/exl	15,25 33,70
Select – primary rhododendron crossing with exceptionally attractive foliage. Young shoots covered intensive cream-cinnamon coloured tomentum which remains on the shrub all year long. Older leaves are dark green, glossy. Indumentum of the leaves is copper brown. Flowers are big, pale pink with darker spot. Dense and stocky habit – after 10 years reaches 50-60 cm. Frost resistance of -24°C.			
<b>Yaku Angel</b> (select <i>degronianum</i> ssp. <i>yakushmanum</i> )	pink	5/exl 15/exl	11,90 27,15
Select, with unusual attractive foliage – young shoots covered with intensive, silver tomentum. Indumentum of the leaves is light brown. Older leaves are dark green, elongated, rolled up. Flowers are pink in bud, when blooming – white. Dense and wide habit. In 10 years reaches 60-80 cm. Frost resistance of -26°C.			

## PRIMARY CROSSING

**Breeder: Bengt Karlsson**

Variety	Flower color	Symbol	Price [EUR]
Pot size (L) / ex - plants with flower buds, price group (I+, I, II)			
<b>Bengt's Bear</b> ( <i>pachysantum</i> x <i>yakushmanum</i> )	light pink	5/exl	15,25
Primary crossing of rhododendron with attractive foliage – young shoots are covered with an intense copper brown tomentum, that changes to creamy as time goes by. With suede like, cream coloured indumentum. Leaves are rather big, oval. Tomentum stays on leaves for several months. Flowers are pale pink. Dense and stocky habit. Growth is typical for <i>Yakushmanum</i> group. In 10 years reaches 80-100 cm. Frost resistance of -24°C.			
<b>Little Bear</b> ( <i>yakushmanum</i> x <i>tsariense</i> )	light pink	5/exl 15/exl	15,25 33,70
Primary crossing of rhododendron with oval, small leaves – young shoots are covered with intense tomentum of cinnamon colour, that changes to creamy as time goes by. With suede like, light brown indumentum. Flowers are pale pink. Grows slowly, in 10 years reaches 60-80 cm. Frost resistance of -24°C.			

## SPECIES

Variety	Flower color	Symbol	Price [EUR]
Pot size (L) / ex - plants with flower buds, Pa - grafted on stem, price group (I+, I, II)			
<b>Rh.campanulatum</b> ssp. <i>aeruginosum</i>	pink	NOVELTY! 5/exl	15,25
Rare species of rhododendron with exceptionally attractive leaves. Young shoots are shiny with blue metallic shade. Flowers are pink. Grows slowly, in 10 years reaches 150 cm. Frost resistance of -20°C.			
<b>Rh.watsonii</b> ssp. <i>rhododactylum</i>	creamy white	NOVELTY! 5/exl Pa	15,25
A botanical species occurring naturally in mountain, Sichuan, China. White cream flowers with a delicate, red spot. Blooms in May. It has an attractive foliage - underside of the leaves are covered with copper brown indumentum, the top side is dark green with a fine copper tomentum. Grows slowly - size after 10 years is 50-60 cm height. Dense and squat habit. Frost resistance -24°C.			
<b>Rh. wiltonii</b>	white-pink	5/exl 15/exl	15,25 33,70

A botanical species occurring naturally in mountain, Sichuan, China. White pink flowers with darker spot. Blooms in May. It has attractive foliage- the underside of the leaves is cinnamon and the top side is leathery, intense dark green with fine tomentum. Young shoots are creamy and contrast with the dark green of older leaves. It grows slowly – size after 10 years is 50 cm height. Dense and squat habit. Frost resistance -24°C. The name of the shrub was given to commemorate Sir Colville E. Wilton.

## FINNISH RHODODENDRON COLLECTION

### Breeder: Kristian Theqvist

Finnish rhododendron collection consists of new varieties, grown in Finland by Kristian Theqvist. They were raised with participation of the strongest rhododendrons, to whom they owe high frost-resistance (between -26°C and -32°C) and attractive colour schemes. They are the perfect fit for cooler climat. The collection is still open, so every year some new varieties will extend it.

Symbol	Height [cm]	Container [L]	Price [EUR]

10/exI 15/exI	40-50	10/15	19,10
10/exII 15/exII	35-45		17,70

Variety	Flower color
<b>Becca</b> (Helsinki University x Blue Bell) New Variety of finnish breeding with high frost resistance up to -30°C. Flowers intensely pink with green-brown spot. Loose habit. It grows with medium intensity. At the age of 10 years it reaches the height of 120 cm. Leaves in the type of species brachycarpum - very big, shiny, vivid green.	<b>pink</b>
<b>Eija</b> (Elviira x Blue Bell) Profusely blooming variety with bicolor flowers, pink outside and white inside with big, light brown spot. Leaves are elliptic, dark green. Very dense, compact and straight form. After 10 years it reaches 1,2 m height. Blooms in May. Frost hardy down to -26°C.	<b>pink-white</b>
<b>Kristian's Cute</b> (Kullervo x Böhmen) It stands out with cream white flowers with delicate pink patches on the edges of petals, and light brown spot on yellow background. Dense, compact form, dark green leaves. At the age of 10 reaches 60cm height and 80 cm width. Frost hardy down to -28°C.	<b>cream-white</b>
<b>Kristian's Moonlight</b> Slow-growing variety with dense, compact habit and original foliage. Older leaves are brown-green and olive green, they contrast with young, light green growths. Flowers are big yellow-cream with a brown-orange blotch. At the end of flowering they turn pale pink. In 10 years grows up to 60 cm high. Very high frost resistance to -30°C. Plants with 1 flower bud..	<b>yellow-cream</b>
<b>Kristian's Sunshine</b> Finnish, frost hardy variety. Light yellow flowers with delicate claret spot at the top of petal. High frost resistant up to -30°C and yellow colour of flowers is very unique duo among other rhododendrons. Dense, compact form. Flowering time is early Spring. Leaves are oval and shiny.	<b>light yellow</b> <b>NOVELTY!</b>
<b>Lumotar</b> (Helsinki University x <i>fortunei</i> ) A variety with light pink flower buds and fragrant, pure white flowers. Unusual incompact flower crown and stamens partially transformed into petals. Its finnish name means 'Charming Beauty'. Leaves are elliptic, dark green, brighter on the edges. Very straight form, loose. After 10 years it reaches 1,8 m height, and 1,5 m width. Blooms in May. Frost hardy at least down to -26°C.	<b>light pink</b>
<b>Merja</b> (Helsinki University x Böhmen) It stands out with its red flower buds and unique, pink-orange flowers with yellow-brown spot. Densely leaved variety with dark green, huge, inversely elliptic leaves and compact form. It grows slowly - after 10 years it reaches 80 cm height, and 120cm width. Blooms in May. Frost hardy at least down to -30°C, which is unusual among varieties with that color of flowers. Plant with 1 or more flower buds.	<b>pink-orange</b>
<b>Nikodemus</b> [( <i>brachycarpum</i> x <i>aureum</i> ) x <i>hybr.</i> ] A variety with white, semi-full flowers, which are pink before they open. Young increments are light green, older leaves are oval, olive-green. Dense, compact form. It reaches 50 cm height and 80 cm width after 10 years. It blooms early - at the beginning of May. Frost hardy at least down to -26°C.	<b>white</b>
<b>Pernilla</b> (Helsinki University x Blue Bell) A variety with pure white flowers with big, light brown spot. Leaves are inversely elliptic, huge, dark green. Medium-strong growth. After 10 years it reaches 1,2 m height. It blooms late, at the end of May. Frost hardy at least down to -26°C.	<b>white</b>
<b>Ritva</b> (Haaga x <i>campanulatum</i> ) A variety with sensitive, light pink flowers and pink flower buds. Leaves are oval, dark green. Medium-strong growth - after 10 years it reaches 1,4 m height and width. Dense form. It blooms in May. Frost hardy down to approximately -30°C.	<b>light pink</b>

## RHODO KISS RHODODENDRON COLLECTION

A new set of varieties grown in our nursery. Each of three varieties from Rhodo Kiss collection is characterized by unique feature. All of them have one thing in common - color scheme - juicy flower colors resembling a spring kiss of nature.

Symbol	Height [cm]	Container [L]	Price [EUR]

Variety	Flower color
---------	--------------

### Double Kiss<sup>PBR</sup>

dark pink

(Haaga x Mars)

A variety with very rare among rhododendrons, semi-full, deep dark pink flowers. Leaves are dark green, oblong. Dense and straight form. After 10 years it reaches 1,5 m height. Very frost hardy down to -30°C.

### Late Kiss<sup>PBR</sup>

pink

(Mrs Anthony Waterer x Artmeyer's Späte)

Very late blooming rhododendron variety - it blooms in June! Huge, light green and lofty flower buds. Big, pink flowers, with visible, yellow-brown painting. It blooms profusely. Dense, upright form. After 10 years it reaches 1,5 m height. Frost hardy down to -24°C.

### Neon Kiss<sup>PBR</sup>

neon-red

(Haaga x Brisanz)

Hardy variety with very intensive, neon-red flowers. It stands out with its attractive, dense form and dark green leaves. It grows medium-strong. After 10 years it reaches 1,2 m height. Reliable and profuse blooming. Very frost hardy down to -28°C.

## ROYAL RHODODENDRONS

Symbol	Height [cm]	Container [L]	Price [EUR]

35/exII	55-65		43,15

Variety	Flower color
<b>Royal Amaranth /Jan III Sobieski</b>	<b>amaranth with yellow spot</b>
Flowers of amaranth colour unique for rhododendrons with yellow spot. Slow growing variety with rather small, elongated, dark green leaves, rolled up slightly. Light green buds contrast well with dark green leaves. Frost resistance up to -30°C.	
<b>Royal Butterfly<sup>PBR</sup> /Królowa Jadwiga<sup>PBR</sup></b>	<b>pink with brown-red spot</b>
Variety with pink flowers, strongly waved petals and big brown-red spot. Variety shows tendency to partially flower in Autumn. Flowering is abundant. Grows very intensely, has straight habit. Leaves dark green. Frost resistance up to -30°C.	
<b>Royal Candy /Królowa Bona</b>	<b>sugary-pink</b>
Variety of subtle, sugary-pink flowers brighter inside of the flower. Growth - slow; habit - compact. Stems - thick and rigid; leaves - wide and dark green. Finnish varieties were not used in the crossing. The variety is characterized by high frost resistance and abundant flowering. Frost resistance up to -30°C.	
<b>Royal Crimson /Zygmunt III Waza</b>	<b>dark pink with brown spot</b>
Intensively dark-pink flowers with a brown spot. This variety grows moderately, has a compact habit, green leaves. It's distinguished by silvery tomentose on young leaves which gets rubbed away with time. Frost resistance up to -30°C.	
<b>Royal Lilac<sup>PBR</sup> /Bolesław Chrobry<sup>PBR</sup></b>	<b>violet with light brown spot</b>
Purple flowers with a delicate, brown spot. This variety grows intensively and has a dense habit. Elongated leaves, turned up slightly. Frost resistance up to -30°C.	
<b>Royal Red<sup>PBR</sup> /Władysław Jagiełło<sup>PBR</sup></b>	<b>red</b>
Intensively red flowers, composing big, impressive inflorescence. Grows with moderate intensity, has compact habit. Leaves are dark green, elongated, shoots thick and dark brown. Finnish varieties were not used in the crossing. The variety is characterized by high frost resistance and abundant flowering. Frost resistance up to -30°C.	
<b>Royal Rosy<sup>PBR</sup> /Władysław Łokietek<sup>PBR</sup></b>	<b>pink</b>
Light pink, brighter inside flowers with waved petals. The variety grows typically for yakushmanum group. Leaves are dark green, habit dense and compact. It's distinguished by attractive silvery tomentose on young leaves which gets rubbed away with time and brown, soft tomentose at the bottom of the leaves. Frost resistance up to -30°C.	
<b>Royal Scarlet / Kazimierz Wielki</b>	<b>red with yellow-brown spot</b>
Variety of red flowers with a yellow-brown spot. It grows with medium intensity. Shoots are thick, firm and brown-red. Leaves dark green and elongated. Buds light brown. Frost resistance up to -30°C.	
<b>Royal Violet<sup>PBR</sup> /Kazimierz Odnowiciel<sup>PBR</sup></b>	<b>pink with light brown spot</b>
Very big, wide open, pink flowers. Almost white centre of the flower with a big, light brown spot. The most intensively growing variety of all new ones comparable to the variety 'Catawbiense Grandiflorum'. Dense plant habit and oval, shiny leaves. Frost resistance up to -30°C.

## RHODODENDRON REPENS

The shrubs are characterized by slow growth and abundant flowering. Funnel flowers are mostly dark red. The varieties of this group start blooming earlier than multiflower hybrids, at the end of April.

## AZALEAS

Knapp – Hill, Mollis, Ghent and other strongly growing azaleas.

This is a group of shrubs with fabulously colourful flowers. With their lesser requirements they settle for much worse habitat conditions. At the age of 10 years they reach the height of 1–1,5 m. Splendid enormous flowers with wavy petal edges, orange, red and pink in colour – these are the characteristics that distinguish the Knapp-Hill azaleas. The other varieties are in no doubt about the same beauty. They include shrubs with smaller but fragrant flowers or those building wonderful “pompon” inflorescence.

## JAPANESE AZALEAS

### New Czech serie of japanese azaleas

Bred in the Czech Republic in the arboretum Pruhonice

Symbol	Height [cm]	Container [L]	Price [EUR]
Pot size (L) / ex - plants with flower buds, price group (I+, I, II)			
1/I	17-25	1	3,40
2,5ex/I	20-25	2,5	5,15

Variety	Flower color
<b>Čertoryje</b> (Brunella x Kroměříž) A Czech variety available on the market from 2018. Dense upright habit. Leaves are elongated, dark green turning into yellow-orange, and yellow-red in autumn. Flowers dark red up to 5,5 cm wide. The advantage is very long blooming and no fading in the sun. Blooms in early May.	red
<b>Kačina</b> <sup>PBR</sup> (Kermesinum x Profesor Jeršov) Variety with medium growth, shrubs almost rounded in shape, 60 cm (height) x 65 cm (width) in 10 years. Leaves are light to medium green, in autumn they turn into orange and red shades. Flowers are rosy red, 4 cm wide. Blooming early May. Frost resistance up to -24°C.	pink-red
<b>Kroměříž</b> <sup>PBR</sup> (Diamant Rot x Profesor Jeršov) Variety with medium growth, and round habit. After 10 years reaches 65 cm height. Leaves are shiny and dark green - in autumn they are getting red. Flowers are 4 cm wide and they are red. Frost resistance up to -24°C.	red
<b>Malá Skála</b> <sup>PBR</sup> (Diamant Rot x Ledikanense) Variety with slow growth, shrubs broadly rounded in shape, 30 cm (height) and 60 cm (width) in 10 years. Leaves are glossy, medium to dark green, in autumn they turn into red shades. Flowers are light purple, 5 cm wide. Flowering time is late April to mid May. Frost resistance up to -24°C.	light purple
<b>Salajka</b> <sup>PBR</sup> (Čertoryje x Hluboká) Mid to strong growing semidecidual azalea with nice autumn colouring of leaves. Flowers quite big, 5,5 – 6 cm across, purplish red with conspicuous markings. Flowers waxy and stable.	purplish
<b>Sněžka</b> <sup>PBR</sup> (Maischnee x Lednice) Variety with medium to strong growth, shrubs almost rounded in shape, 80 cm (height) x 100 cm (width) in 10 years. Leaves are dark green, in autumn they turn into yellow shades. Flowers are pure white, buds and young have yellow tint, 5,5 cm wide. Flowering time is early to mid May. Frost resistance up to -24°C.	white

## BLUEBERRY *(Vaccinium corymbosum)*

***All our mother microcuttings are proved to be virus-free according to laboratory examination.  
We conduct genetic comparative tests for variety genuineness.***

The blueberry plants are very well rooted, hardened off and well-branched from the very plant shoot. Bushes are produced by the micro-cutting method developed in our nursery. Frost hardiness follows Brazelton 2000.

### VARIETIES PRODUCED UNDER LICENSE

Symbol / Age	Height [cm]	Container [L]	Price [EUR]

These varieties are protected by breeders license which belongs to Michigan State University (Aurora<sup>PBR</sup> - CPVR 23937, Calypso<sup>PBR</sup> CPVR 2014/2700, Draper<sup>PBR</sup> - CPVR 23938, Liberty<sup>PBR</sup> - CPVR 23939, Huron<sup>PBR</sup> CPVR 46583 Sold under license from Michigan State University). **Royalty fee is 0,50 EUR not included.**

Variety
<b>Aurora<sup>PBR</sup></b>
<b>Calypso<sup>PBR</sup></b> New variety of Vaccinium corymbosum. Berries mature late , similar to 'Legacy'. Fruits are big (over 2 cm wide), regular in size, slightly flattened, firm, with light blue waxy bloom and low acidity. They can be easily stored and transported. Small stem scar. One of the best varieties for a large scale production at the moment.
<b>Draper<sup>PBR</sup></b>
<b>Huron<sup>PBR</sup></b> New, valuable variety, bred by Michigan State University. Fruits are very big, hard, extremely tasty and sweet. Abundant fructification. Small scar on fruit. The color of fruit is light blue, should be picked when fully ripe. Ripe early, just after Duke variety. Crop quite long (3 weeks). Straight habit. Frost resistant variety.
<b>Liberty<sup>PBR</sup></b>

**Blueberries are available in the following varieties:**

**Pink Lemoniade**

**SOUTHERN Highbush**

**Variety**

**Star<sup>PBR</sup>**

Southern highbush variety, perfect for warmer climates (requires a minimum of 400 hours of cooling per year). Frost resistance up to -18°C. It grows medium-strongly. Its advantage is the simultaneous ripening of all fruits, allowing to limit the number of harvests. The fruits are big, round, with good hardness. It fruits early. Star is one of the best and most popular cultivars grown in southern parts of Europe and also in places not exposed to strong frost.

**Biloxi**

**NOVELTY!**

Southern highbush variety. Plants may freeze in Polish climate without covering. Fruits big, hard, pretty sweet. Fruits ripens early, gradually.

**O'Neal**

**NOVELTY!**

Southern highbush variety, ripe very early. Fruits are big, hard, sweet and pretty juicy. Straight habit. Tolerate high temperature and drought. Plants may freeze in Polish climate.

**Ozark Blue**

**NOVELTY!**

Southern highbush variety with high frost resistance. Ripening late. Wide and branchy habit. Fruits are big, sweet and very tasty. Very fertile variety.

## PATIO BLUEBERRIES

(*Vaccinium angustifolium* x *Vaccinium corymbosum*)

Varieties produced under license: Aino<sup>PBR</sup>, Alvar<sup>PBR</sup>, Arto<sup>PBR</sup>, Jorma<sup>PBR</sup>

The most important feature of Patio Blueberries is high frost resistance - they can be easily grown on terraces and balconies. These plants can survive winter in a container if properly protected, however it is recommended to keep them in a cold garage or basement. Very abundant fructification and compact form - grow up to about 1,5 m high are the unique properties of Patio Blueberries. The size of fruits differs depending on the variety and ranges from 1 to 1,5 cm. The material in the varieties Aino, Alvar, Arto, Jorma is offered exclusively and covered by MTT Laukaa breeder's license. The price includes a license fee.

5/II			6,40
15/I	50-70	10 / 15	10,10

Variety
---------

### Aino<sup>PBR</sup>

Half-high blueberry with high frost resistance. Habit thick, compact. Fruits with a mild, sweet taste, aromatic, rich in anthocyanins. Very fertile. Recommended for amateur planting.

### Alvar<sup>PBR</sup>

Half-high blueberry with high frost resistance. Early fructification period. Habit of shrub dense, low. Fruits with a mild, sweet taste, very tasty, rich in anthocyanins. Promising novelty recommended for amateur planting.

### Arto<sup>PBR</sup>

Half-high blueberry with high frost resistance. Grows fast, similar to highbush blueberry. Fruits with intense sweet taste, slightly sour, aromatic, rich in anthocyanins. Recommended for amateur planting.

### Jorma<sup>PBR</sup>

Half-high blueberry with high frost resistance. Yield 2-3 times in a year. Habit erect, growth strong. Fruits with a mild, sweet and sour taste, rich in anthocyanins. Recommended for cultivation by amateurs.

## SERVICEBERRY

(*Amelanchier*)

Serviceberry is a kind of fruit-bearing shrub belonging to the family Rosaceae, naturally growing in the areas of North America. Due to the taste and health qualities of the fruits as well as the decorative look of the shrubs throughout the year, they are very popular in Canada and are becoming a promising novelty in European countries. Fruits are mild in taste, sweet, purple and dark blue. It's fruiting from mid-June to mid-July. Habit loose, upright. Reaches about 2-5m in height depending on variety. The shrub is completely resistant to frost up to -40°C

## CORNELIAN CHERRY

(*Cornus mas*)

Cornelian cherry is a fruiting and ornamental shrub that occurs naturally in south-eastern Europe and south-western Asia. It bears fruit in August. Fruits are red, sweet, very tasty with a length of about 2 cm and shape resembling olives. The fruit can be eaten raw and dried, but are also ideal for making preserves. The shrub has a low soil requirement, prefers a pH from slightly acidic to neutral. It is increasingly popular in Europe and North America, not only because of the fruit, but also its decorative value.

Variety			

### **Regina**<sup>PBR</sup>

This variety protected by breeders license which belongs to Italian producer, Berryplant. One of the earliest ripening raspberry varieties. This selection is characterized by the excellent yield on one-year shoots. Fruits large and conical, with a brilliant light red color, excellent taste and shelf life. Very tasty and sweet, valued for their distinctive taste and aroma. They are suitable for industrial and amateur plantings.

### **Magda**<sup>PBR</sup>

This variety protected by breeders license which belongs to Italian producer, Berryplant. Compact plant thanks to it is suitable for growing in pots. Bears fruit on one year shoots. Fruits are very sweet and tasty. Highly recommended for amateur plantings.

## BLUE HONEYSUCKLE

(*Lonicera caerulea* var. *kamtschatica*)

Blue Honeysuckle is a fruity shrub native to north-eastern Asia. It is growing in popularity due to its health benefits and taste. Fruits are blue, oblong, sweet-sour, 2-4 cm long, covered with wax coating. High fertility obtained 2-3 kg of fruit from one shrub. For good fruiting you should plant at least 2 varieties side by side. First fruits can be eaten in May. The shrub has a high resistance to drought and extremely high frost resistance – over 40°C. Due to its low growth requirements and early fruiting, it is a promising alternative to American blueberry.

#### HYDRANGEA MACROPHYLLA 'DIVA FIORE' PBR

Novelties by German breeder Katrin Meinel that are suitable for cooler climate.

These hydrangeas are one of the most beautiful flowers which are carried in bunches at the end of stems. Colour of the flowers can be: pink, violet or blue. This variety is very healthy and winter hardy, reblooming every year in polish climate. Characteristic feature of *Hydrangea macrophylla* 'Diva Fiore' is continuously new blossoming from June to November. Sturdy branches and compact growth habit, reliably blooms on every shoot. Because this hydrangea is wonderfully uncomplicated and need low maintenance it is suited for gardens as well as containers on patios and balconies. Exact colour depends upon the acidity or alkalinity of the soil. To acid the soil we can use aluminum or ammonium sulphate. To increase alkalinity - calcium.

Variety	Flower color	Container [L]	Height [cm]	Price [EUR]
<b><i>Hydrangea macrophylla</i> 'Diva Fiore' PBR</b>	pink/violet/blue	5	50-60	16,05

## GENERAL COMMERCIAL TERMS AND CONDITIONS

### I. General provisions.

#### § 1.

1. These General Commercial Terms and Conditions (hereinafter referred to as "GTCs") set out the principles of sales, deliveries, contracts, offers and agreements conducted by the Seller and form an integral part of the contracts concluded with the Purchasers. They shall apply as soon as the Seller confirms the Purchaser's order or issues an invoice, to which the Seller attaches the content of the GTCs.
2. Any amendments to these terms and conditions shall be made in writing in order to be valid.

### II. Definitions

#### § 2.

The following terms used in the GTCs shall be understood to mean:

"**Seller**" - the entities indicated in the Order Confirmation as a party to the transaction, acting jointly or separately:

- a. **Anna Cieplucha-Kowalska Nursery Farm;**
- b. **Cieplucha Nursery Farm - Krzysztof Kowalski;**
- c. **Jan Cieplucha Nursery Farm;**
- d. **Krzysztof Kowalski Horticulture;**

"**Purchaser**" - a natural person, an organisational unit without legal personality which the Act grants legal capacity or a legal person who has concluded a Contract with the Seller or has placed an Order with the Seller;

"**Order**" - a document originating from the Purchaser in written, electronic, telephonic or documentary form;

"**Order Confirmation**" - a document originating from the Seller in written or electronic form;

"**Contract**" - contract of sale, delivery, contracting or any other contract concluded by the Seller with the Purchaser in accordance with the provisions of the Civil Code;

"**Price List**" - a list of goods published on the Seller's website or displayed at the Seller's premises, together with their unit price,

### III. Offers and conclusion of Contracts

#### § 3.

1. The Seller's offer in the form of content presented on the Seller's websites, as well as printed materials of informative character regarding the Seller's business activity, in particular announcements, advertisements, price lists and other information about the Seller's enterprise are not an offer within the meaning of Articles 66 and 66<sup>1</sup> of the Civil Code. This content may only relate to goods currently offered by the Seller.
2. The offer is valid while stocks last.

### IV. Conditions for placing orders

#### § 4.

1. In order to conclude the Contract, the Purchaser shall submit an Order, upon receipt of which the Seller shall confirm the Order. The Contract is concluded on the terms and conditions described in the GTC when the Seller sends the Order Confirmation to the Purchaser. Any objections to the contents sent in the Order Confirmation shall be notified by the Purchaser without delay.
2. The sending of the Order or other arrangements by the Purchaser in written electronic or documentary form (e.g. e-mail, letter, scan) shall be deemed to be knowledge and acceptance of the Seller's GTCs by the Purchaser and shall be deemed binding by the Seller.
3. In the Order, the Purchaser is obliged to indicate at least:
  - a. the type and quantity of goods ordered,
  - b. the Purchaser's e-mail address for sending the Order Confirmation, unless it is to be delivered to the Purchaser at the Seller's retail outlet,
  - c. the method of collection or delivery of the goods ordered,
  - d. the method of payment of the price.
4. The Order Confirmation shall contain at least:
  - a. the quantity and type of goods ordered,
  - b. the unit prices of the goods valid on the date of the Order Confirmation,
  - c. the total value of the Order,
  - d. the approximate time of collection or delivery of the goods,
  - e. information on the amount and date of payment of the deposit (if provided for),
  - f. information on the deadline for payment of the value of the Order.
5. The GTC is posted on the Seller's website. The Seller shall provide the Purchaser with these GTCs together with the Order Confirmation and the sales document.

6. For the avoidance of doubt, it is stipulated that in the event of a discrepancy between the wording of the Order and the Order Confirmation, the indications in the Order Confirmation shall be binding on the parties.
7. The parties expressly exclude the application of any general terms and conditions or model contracts used in the trade by the Purchaser.
8. Any customer placing orders for a total amount exceeding:
  - PLN 30,000.00 for nursery stock,
  - PLN 10 000,00 for blueberriesundertakes to pay a deposit of 20% of the value of the goods ordered. The deposit shall be payable in cash or to the bank account specified by the Seller on the Order form within 7 working days of effective delivery of the Order Confirmation.
9. Failure to pay the Deposit by the aforementioned deadline shall result in cancellation of the Sales Contract and no guarantee of availability of the ordered material.
10. The Deposit paid shall be set off against the sale price. In the event of cancellation of the Order or non-performance of the Contract by the Purchaser (non-payment for the ordered goods), the Deposit is non-refundable (art. 394 of the Civil Code), unless the Seller has agreed to the Purchaser's cancellation of the ordered goods.
11. Upon duly motivated request, the deadline for payment of the deposit may be extended by the Seller. In such case, the effect referred to in § 4.9 shall not take place and the validity of the offer included in the Order Confirmation shall be extended accordingly until the expiry of the additional period for payment of the deposit.
12. In the event of non-performance of the Contract by one of the parties, the other party may, without setting a grace period, withdraw from the Contract and retain the Deposit received, or, if it has given it itself, may demand its return in the same amount without interest.
13. The Seller has the right to withdraw from the Contract without being obliged to state a reason (art. 395 § 1 of the Civil Code). The declaration of withdrawal from the Contract shall be submitted to the Purchaser in written or documentary form under pain of nullity. In such a case, the Contract shall be deemed not to have been concluded and the Seller shall return to the Purchaser the Deposit paid by the Purchaser. If the Seller exercises the aforementioned right, the obligation to pay twice the amount of the deposit is excluded.

#### § 5.

1. Once the Contract has been concluded, any change to the quantity or type of goods ordered shall require the Seller's consent in writing or by e-mail under pain of nullity.
2. A change in the quantity or type of goods ordered without the required consent of the Seller shall not have the effect of an amendment to the contract, i.e. the Purchaser is obliged to take delivery of the entire order and pay the price.
3. In the event that the Seller agrees to the change referred to in paragraph 1, an amendment to the Contract shall take place. The deposit paid shall be credited in full towards the price of the changed subject of the Contract and shall not be reduced accordingly.
4. If the goods of a given type are out of stock and consequently unavailable, the Seller shall replace the missing types of goods with others of similar parameters in agreement with the Purchaser. Agreement in this respect shall be made in documentary form (e-mail, text message).
5. Failure to collect the goods by the agreed date and non-payment shall entitle the Seller, at his discretion, to demand payment and collection of the goods by the Purchaser or to exercise the rights provided for in the GTC, i.e. to perform the contract.

### V. Prices

#### § 6.

1. The prices for the goods sold are shown in the Price List.
2. The prices of the goods in the Price List and the Order Confirmation are net prices (excluding VAT).
3. The Seller may carry out and cancel promotional campaigns.
4. The Seller reserves the right to change the Price List at any time.
5. The prices of the goods stated in the Order Confirmation are valid as of the date of the Order Confirmation. The Seller shall be entitled to declare to the Purchaser a change in the price specified in the Order Confirmation by the monthly price index of goods and services, i.e. mdm (month of Order Confirmation = 100) announced by the President of the Central Statistical Office. The revised price is effective from the time of the Seller's

declaration. The Seller shall be entitled to make the declaration described above before the deadline for payment by the Purchaser.

6. The prices listed in the Price List do not include the costs of delivery in the case of sales outside the Republic of Poland. The Purchaser is informed of these costs in the Order Confirmation.
7. The Price List is valid until a new Price List is issued.
8. Wholesale prices apply when adult nursery stock is purchased for a minimum of PLN 1,000.00 and a minimum of 5 units of one variety.
9. For young material, a minimum of 120 units per variety (M40 multiplat). The minimum order quantity for plants in P9 and C1 containers is 500 plants per variety for bulk purchase. For purchases of 100-500 units, the retail price applies. Orders of less than 100 plants in P9 and C1 containers will not be fulfilled.
10. Purchasers issuing VAT RR invoices receive a proof of delivery. The prices stated in the delivery note are net prices, to which the Purchaser shall add VAT (in accordance with the Value Added Tax Act of 11 March 2004).

#### **VI. Discounts**

##### **§ 7.**

1. When purchasing adult nursery stock, excluding plants in C90 containers and larger, the Purchaser is entitled to a discount, calculated on the basis of the total value of goods purchased from the Seller by the given Purchaser in the current year or the previous year in relation to the date of the Contract, depending on which is higher. The value of the current year's and previous year's purchases are not added together for the purpose of granting a discount.
2. The amount of the discount is:  
**5%** - with a total value of the purchased goods from the current or previous year in the range of **PLN 2,000.00 - 5,000.00**;  
**10%** - with the total value of goods purchased from the current or previous year in the range of **more than PLN 5,000.00 to PLN 10,000**;  
**15%** - with the total value of goods purchased from the current or previous year in **excess of PLN 10,000.00**.
3. In addition, the Purchaser entitled to the discounts referred to in paragraph 2 is eligible for a discount in the amount of:  
**2%** - for payment in cash or prepayment by bank transfer

#### **VII. Method of payment**

##### **§ 8.**

1. For sales within Poland, the following forms of payment apply:
  - a. in cash upon receipt of the goods,
  - b. by bank transfer to the Seller's account within 30 days from the date of the bill or invoice, up to the amount of the trade credit granted by the Seller. Trade credit is granted at the Seller's discretion, only to Purchasers who have not been in arrears with their payments for more than 30 days in the last 3 years (so-called creditworthiness),
  - c. Purchasers who are subject to collection are obliged to pay for the ordered goods only in cash or by prepayment.
2. In the case of the first Contract concluded with the Purchaser, payment in cash, made at the latest upon receipt of the goods, or prepayment by transfer of 100% of the value of the ordered goods to the Seller's bank account shall apply, unless the Seller has agreed to defer payment.
3. In the case of sales outside of the Republic of Poland, payment of the price should be made in full prior to the execution of the order, by bank transfer to the Seller's account.
4. The Purchaser agrees that the Seller may use electronic invoices in settlements within the meaning of the Act of 11 March 2004 on Value Added Tax.
5. In the event of late payment, the Seller shall be entitled to charge statutory interest for late payment.
6. Failure to comply with the terms of payment or the occurrence of circumstances that cast doubt on the solvency and reliability of the Purchaser shall result in the immediate maturity of all amounts due. In this case, the Seller may withdraw from the performance of contracts not yet fulfilled.
7. Purchasers wishing to obtain a delayed payment shall submit the following documents for inspection:
  - identity card,
  - a current extract from the register of economic activities (if they carry out activities on the basis of an entry in the register of economic activities,
  - a document showing the current address details of the Purchaser.
8. Purchasers conducting business in the form of a commercial company, together with the application for deferment of payment, present to the Seller for inspection a copy of the Register of Entrepreneurs of the National Court Register, Tax Identification Number (NIP), Business Identification

Number (REGON), and in the event that the entry in the register is not up-to-date, documents containing up-to-date data.

#### **VIII. Collection of goods and delivery**

##### **§ 9.**

1. Delivery shall be deemed to have taken place when the goods leave the Seller's premises or are loaded onto the Purchaser's means of transport or, in the case of delivery by means of transport belonging to the Seller, at the time of unloading.
2. The Purchaser shall collect the goods himself or use the transport offered by the Seller.
3. Once the goods have been loaded, the risk of damage to or loss of the goods shall pass to the Purchaser.
4. Contractually agreed delivery dates are approximate.
5. In the event of an order for goods with delivery, the quantity of which does not result in full occupancy of the delivery vehicle, the Seller shall combine orders from different Purchasers and send them together when full occupancy of the delivery vehicle is reached, which may result in a delay in delivery.
6. Transport insurance is only taken out at the express request of the Purchaser and at the Purchaser's expense.
7. The Purchaser is obliged to check the conformity of the goods with the order immediately upon receipt. He is obliged to check in particular: the condition of the consignment and the quality, quantity and assortment of the delivered goods, and to draw up a product damage report upon receipt of the goods to the carrier, and immediately (i.e. within 7 days at the latest) notify the Seller of any objections in this respect. Failure to lodge objections within this period shall be tantamount with acceptance of the goods without reservation.
8. Each acceptance of goods must be signed for by the Purchaser. If the Purchaser does not collect the goods personally from the Seller, he must provide details and authorise in writing or in documentary form (e.g. by e-mail) a person/company to collect the goods on his behalf.
9. If the transport of the goods is organised by the Purchaser, the Purchaser must send a forwarding authorisation/order by e-mail. The authorisation must include the details of the forwarding company, the name of the driver or other authorised person collecting the goods, the registration number of the vehicle and trailer, the date of loading, the place and date of unloading of the goods.

#### **IX. Reservation of title**

##### **§ 10.**

1. The Seller reserves ownership of the object of sale until the Purchaser has paid the price.
2. From the moment the goods are handed over, the Purchaser is at risk of losing or damaging the object of sale.
3. The Seller does not lose ownership of the reserved goods by the fact that the Purchaser will heel or plant the delivered plants (goods) on his own or a third party's property after the sale. The reserved goods shall be stored, heeled or planted separately from other plants and marked in such a way that they are recognisable as coming from the Seller.
4. The Purchaser is obliged to take care of the reserved goods free of charge. These include, in particular, correct storage, planting, fertilisation and irrigation.
5. If the Purchaser sells the object of sale reserved in paragraph 1 after processing, combining or mixing it with other goods not belonging to the Seller, the Seller shall be entitled to a share in the co-ownership of the new item in the ratio of the value of the reserved goods to the remaining goods processed at the time of processing, combining or mixing (Article 193 § 1 of the Civil Code).
6. If the price is not paid within the agreed period, the Seller shall have the right to demand immediate release of the object of sale.
7. If the object of sale is taken away from the Purchaser (due to non-payment of the price), the Seller may claim appropriate remuneration for the reduction in value or damage.

#### **X. Performance of the Contract**

##### **§ 11.**

1. If the Purchaser who has paid the price has not taken delivery of the goods by the agreed date, the Seller may sell the goods ordered by the Purchaser, but shall first set an additional time limit for the Purchaser to take delivery, unless setting a time limit is not possible or the goods are in danger of deterioration or would otherwise be at risk of damage. The Seller is obliged to immediately notify the Purchaser of the sale (Art. 551 § 2 of the Civil Code).
2. In the event of the Purchaser's delay in payment or the Purchaser's delay in accepting the subject matter of the Contract, the Seller shall be entitled to withdraw from the Contract provided that a prior request for payment

- or acceptance of the subject matter of the Contract has been issued, reserving at least 3 days for the fulfilment of the obligation. In the event that a declaration of withdrawal is made in accordance with this paragraph, the Seller shall retain the deposit paid by the Purchaser, which shall not limit the Seller's right to claim damages on general terms.
3. The Purchaser is obliged to pay compensation for loading costs in the amount of 5% of the order value, if he has made a declaration of withdrawal from the contract after the Seller has loaded the ordered goods and the amount of the deposit paid has not covered the loading costs.
  4. The Purchaser who has ordered goods with delivery, in case he has made a declaration of withdrawal from the contract, after the Seller has delivered the ordered goods, shall be obliged to pay compensation for the loading costs referred to in para. 3 and compensation for the costs of delivery of the goods to the Purchaser in the amount of 5% of the order value.
  5. The Purchaser shall be obliged to pay compensation for the lack of use of the storage space by the Seller in a situation where the goods have not been collected despite the agreed time limit for the collection of the ordered goods. A contractual penalty shall be charged after the expiry of 7 days from the agreed deadline for acceptance of the order in the amount of PLN 3.00 per CC trolley or box pallet for each day of delay in acceptance of the order.

#### **XI. Models and dimensions**

##### **§ 12.**

1. Merchandise models show average properties. The dimensions of the goods given are approximate. Deviations from the presented models are permissible.

#### **XII. Guarantee, liability and complaints**

##### **§ 13.**

1. The Seller provides a quality guarantee, i.e. he is responsible for the health and viability of the plants at the time of delivery.
2. The Seller's liability towards the Purchaser to the fullest extent permitted by mandatory legal provisions is excluded with regard to:
  - a. any defects or damage resulting, however indirect, from the manner in which the plants have been cultivated or cared for after delivery (e.g. poorly chosen location, inadequate watering, poor choice of substrate), manifesting itself in particular in the failure of the plant to take root, deterioration of its growth level or fruiting;
  - b. the consequences of using plant protection products and herbicides;
  - c. the lost profits of the Purchaser;
  - d. damage resulting, even indirectly, from modifications, mutations or other genetic changes in the plants, which may occur spontaneously, independently of the Seller's actions and are not the Seller's fault;
  - e. damage caused by adverse weather conditions such as frost, drought, hail, flooding and others.
3. The Seller does not guarantee the yield level of fruiting plants, as it is affected by factors beyond the Seller's control.
4. The Seller is not responsible for the occurrence of diseases, pests or other pathogens at the Purchaser.
5. The Seller's liability towards the Purchaser shall be limited solely to damage caused by the Seller through intentional fault and shall in each case be limited to the price of the Contract subject to which the Purchaser's claim is related.
6. The Seller is relieved of liability if the Purchaser was aware of the defect at the time of delivery, as well as if the Purchaser discarded or disposed of the goods.
7. As soon as the goods are resold by the Purchaser, the Purchaser loses the right to make a claim against the Seller and the Seller is released from liability for the sold goods. The lodging of a complaint does not invalidate acceptance or the obligation to pay for the purchased goods.
8. The Seller's warranty liability is excluded. This provision shall not apply if the Customer is a Consumer.

##### **§14.**

1. The Seller shall not be liable for non-performance or undue performance of the Contract caused by an event constituting force majeure, understood as an external condition beyond the control of the Parties. The Parties consider force majeure to be, in particular:
  - a. natural disasters and other acts of God, including but not limited to: drought, flood, fire, earthquake, extreme cold or heat, hail, heavy rain or snow, storm, tornado, landslide;
  - b. disruption of collective life resulting from hostilities, internal disturbances or strikes,
  - c. occurrence of an epidemic;
  - d. acts of state authority that make it highly difficult or impossible to carry out commercial activities, such as the introduction of a state of

epidemics or a state of epidemic emergency, a state of war, a state of emergency.

2. If, as a result of the force majeure referred to in section 1, the performance of the Contract becomes impossible or significantly hindered, the Seller shall be entitled to terminate the Contract within 60 days of the occurrence of the circumstance preventing or hindering the performance of the Contract, which shall not entail any claims for damages on the part of the Purchaser. In such a situation, the Purchaser shall be refunded the deposit actually paid.

##### **§ 15.**

1. Any defects in the goods sold must be claimed immediately, but no later than 7 days after delivery. Notice of defects must be given to the Seller in writing, enclosing photo documentation.
2. Plants may have natural discolouration / browning not exceeding 10% of the leaf area, which is not a disease symptom but the natural physiological appearance of healthy plants. On the underside of the leaves, there may be natural suberization, which is a physiological feature, especially present on old leaves. Plants with such characteristics are considered to be full-fledged.
3. Healthy plants are plants that are free of diseases and pests that are subject to compulsory control in the EU.
4. If a complaint is accepted by the Seller, the Purchaser has the right, at his/her own choice, to demand the replacement of the item with a defect-free item or another item at the same price or, if this demand cannot be met, a refund of the price paid.
5. When exercising the rights of complaint, the Purchaser should deliver the item to the Seller's registered office. If the Seller accepts the complaint, he will reimburse the Purchaser for the shipping costs.
6. It is not permissible for the Purchaser to accept the goods with "reservations".

#### **XIII. Final provisions**

##### **§ 16.**

1. The law applicable to these GTCs and the concluded Agreements shall be the law of Poland.
2. The place of performance is Konstantynów Łódzki or Rzesznikowo, municipality of Rymań.
3. In the case of translation, the Polish version is binding in any disputes.
4. The precedence of the Polish language version also applies to the drafting of agreements, contracts and orders, unless the parties agree otherwise.

##### **§ 17.**

Should any provision of the Contract or the GTCs prove to be invalid, the remaining provisions shall remain in force. The Parties in such a case undertake to immediately replace the invalid provision with a valid provision that comes closest to the economic purpose of the provision declared invalid.

##### **§ 18.**

The Parties shall endeavour to resolve any disputes that arise amicably. In the event of disagreement, the competent court for disputes covered by the GTCs shall be the court having jurisdiction over the Seller's registered office.

##### **§ 19.**

The GTCs are effective as of 27.02.2023.
